The giant British dirigible R-34 is the lighter-than-air machine to attempt a trans-Atlantic flight. The airship, the largest of its kind in the world, measures 52t feet from toos to stern, and carries three beats below the gas bag. She has a capacity of 12,000,000 cubic feet, and is commanded by Maj. G. H. Scott, of the royal air force. The craft is equipped with a wireless system as powerful as that of the great ocean liners.

Among the crew of 23 men, is Lieut.—Commander Zachary Lansdowne, staff commander of the American naval air forces in France, who is making the voyage as representative of the United States navy.

It has been estimated that the R-34 will cross the Atlantic in from 60 to 79 hours under favorable conditions. Announcement has been made, however, that no attempt will be made to establish a time record for the crossing, the comfort of the dirigible's crew given first consideration.

With favorable weather, the R-34 is expected to parallel the route of the northern steamship lanes, but should adverse weather conditions be encountered, she probably will take the southern course, passing over near the Azores.

The landing will be made at Roose.

Burney, Smith, Kehoe, Fitzgerald and Tom Gwartney Probably Are Safe.

Policemen, uneasy of mind as to the unstability of their present embloyment, are looking for several more discharges among their ranks some time today. They base their fear of the 'blue envelope' on the conference held Tuesday between C. B. Quinn, police commissioner and J. B. Burney, police chief.

The city commission adjourned the regular meeting Tuesday, until 2.30 Wednesday afternoon. It is believed that the 1919 appointments of the police chief and other executive heads of the department, will come up at the Wednesday meeting.

That Joe Burney will retain his place as chief seems assured. Hulet Smith, detective chief, who generally was regarded as being marked for official slaughter now probably will keep his job. Capt. Mike Kehoe also is regarded as another cinch for reappointment. John J. O'Hearn, the other captain, is not sitting so pretly, according to the political dopesters.

There are two candidates in the field for the job of assistant police chief, a place left vacant by the discharge of Eddle Page. They are C. Eugene Hume, former police captain, and Robert B. Wilroy, formerly a deputy sheriff under Mike G. Tate.

The names of two old timers is being mentioned for an executive position. They are John Larkin, former superintendent of street cleaning, and expatrolyman, and T. Eddle Clark, who made a splendid record in four or five years service as a motorcycle and emergency officer.

## ATLANTIC CITY IS NOW MECCA FOR SOUTHERNERS

ATLANTIC CITY, July 2.—This is the season for southern travel toward the Atlantic City broadwalk. New breezes that carry the cool ocean breezes that carry health and comfort in their zone ladea sweep, and enjoy vacations in this greatest of seashore resorts. This year restoration of normal railway schedules and promise of real summer reductions in rates during the vacation period promise to make this the greatest coast season in history.

Old friends of Atlantic City and new patrons of its attractions will find the ten mile long broadwalk and the splendid bathing beach still its greatest outdoor attractions. Improvements have been mide in the promenade and jettles have caught and held added acres of beach that will insure against congestion even during the height of the bathing season. The big piers are open with special summer attractions and the walk theaters and smart shops offer lure to thousands.

Yischting also will take a boom this year with return of many fast craft from war service. An added innovation of the summer will be special races sponsored by the yacht clubs for seaplanes which will have special racing courses and landings laid out by experiengineers. The big air port fn. Chelsea laid out for the Pan-American Aeronautical congress, will be kept in operation throughout the year and a feature of week-ends will be the arrival of visiting filers from big army camps and city flying clubs.

New York Central Engineer
Tells of Effort He Made
to Avert Disaster.

DUNKIRK, N. Y., July 1.—Engineer
Clifford, of the New York Central's Westerner express, tried, according to his dying statement, to avert the rearend collision with train No. 41, which caused the death of 12 persons, the serious injury of 19 others and slight cutts and bruises to as many more here early Tuesday. The airbrake failed to work, the engineer declared, Witnesses said that the siren was still screeching for the handbrakes when the Westerner, going 50 miles an hour, plowed into the rear coach of No. 31.

Clifford stuck to his post to the end. He was dying when his body was taken from the wrock of the engine.

The brakes wouldn't hold, they would not work, he gasped just before he died.

An investigation by railroad and federal officials is said to have developed the fact that the air controlling the brake on the Westerner was cut off between the engine tender and the first car of the train, although it was tested in the Buffale yards an hour before the accident. The finding of a body, apparently that of a tramp, wedged in the weekeage back of the tender is in the wreckage back of the tender is increase of taxes in this state."

Hair Made Beautifully Wavy While You Sleep!

Ing ends.
Liquid silmerine is of course entirely harmless. It leaves no sticky, greasy or streaky trace. It has the peculiar quality of drying in beauty waves, creases and swirls. It is also an excellent dressing for the hair, keeping it delightfully soft and silky. A few ounces from your druggiest will last for weeks. It is best applied with a clean footh brush, drawing this down the full length of the hair.

Cocoanut Oil Makes A Splendid Shampoo

If you want to keep your hair in good ondition, be careful what you wash it with.

Most soaps and prepared shampoor contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair, Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp

thoroughly. The lather rinses out easily and removes every particle of dust, lly and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and eventy, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoanut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.
